

How God's Love Can Change Your Life and the World

Saturday, Dec 9th at 2:00 pm

**Held at the Christian Science Reading Room
2438 North Charles Street
(across the street from Safeway)**

The speaker is Mark McCurties, CS

a member of the Christian Science Board of Lectureship

We live in a city where hundreds of people are striving to make change for the better. How do we make sure such change actually happens? The speaker will explain how God's loving and saving power is the greatest agent for change, and with a right understanding of God, His power can be seen and felt right here and right now, bringing health and peace to each one of us and to Baltimore. The ideas in this lecture are based on the teachings of Jesus as recorded in the Bible, and as discussed in the book, *Science and Health with Key to the Scriptures*, by Mary Baker Eddy.

Sponsored by First Church of Christ, Scientist, Baltimore
